

REFERME INVESTMENTS

DAX MEASURE CATALOGUE

Power BI Investment Analytics Measures
February - June 2026

Document Control	Details
Document ID	RMI-DAX-001
Version	1.0
Purpose	Catalogue the DAX measures used or proposed for the ReferMe Investments Power BI solution, with purpose, dependencies, scope and implementation status.
Source Basis	Existing ReferMe DAX Measure Pack plus the approved project KPI / scoring / Power BI requirements.
Status Discipline	Snapshot measures are separated from FUTURE-READY measures. Measures requiring historical data, targets or approved thresholds are not represented as currently production-ready.
Important Note	The existing DAX pack contains illustrative fallback values for some scoring thresholds. These require stakeholder validation and must not be presented as final ReferMe investment rules.

1. Measure Catalogue Structure

The catalogue is organized into current snapshot measures, recommendation measures, selected-business measures, ranking/comparison measures, assumption-driven scoring measures, alert measures, future-ready KPI measures, future-ready monitoring/risk measures and dynamic labels.

2. Current Snapshot Core Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-001	Businesses Evaluated	DISTINCTCOUNT of Business ID	Counts distinct evaluated businesses.	Investment Data[Business ID]	Current snapshot	Overview
DAX-002	Total Revenue \$K	SUM of Revenue (\$K)	Portfolio revenue in the units stored by the snapshot dataset.	Investment Data[Revenue (\$K)]	Current snapshot	Overview / Profile
DAX-003	Total EBITDA \$K	SUM of EBITDA (\$K)	Portfolio EBITDA in the units stored by the snapshot dataset.	Investment Data[EBITDA (\$K)]	Current snapshot	Overview / Profile
DAX-004	Portfolio EBITDA Margin %	Total EBITDA / Total Revenue	Portfolio EBITDA margin.	DAX-002, DAX-003	Current snapshot	Overview
DAX-005	Average Growth %	AVERAGE Growth %	Average growth across the current filter context.	Investment Data[Growth %]	Current snapshot	Overview
DAX-006	Average Retention %	AVERAGE Retention %	Average customer retention across the current filter context.	Investment Data[Retention %]	Current snapshot	Overview
DAX-007	Average Investment Score	AVERAGE Investment Score	Average overall score across businesses in context.	Investment Data[Investment Score]	Current snapshot	Overview
DAX-008	Average Financial Strength	AVERAGE Financial Strength	Average Financial Strength dimension score.	Investment Data[Financial Strength]	Current snapshot	Overview / Evaluation
DAX-009	Average Operational Performance	AVERAGE Operational Performance	Average Operational Performance score.	Investment Data[Operational Performance]	Current snapshot	Evaluation
DAX-010	Average Growth Score	AVERAGE Growth Score	Average Growth dimension score.	Investment Data[Growth Score]	Current snapshot	Overview / Evaluation
DAX-011	Average Customer Health	AVERAGE Customer Health	Average Customer Health dimension score.	Investment Data[Customer Health]	Current snapshot	Evaluation
DAX-012	Average Risk Score	AVERAGE Risk Score	Average Risk dimension score.	Investment Data[Risk Score]	Current snapshot	Overview / Evaluation

3. Recommendation & Risk Count Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-013	Invest Count	Businesses Evaluated filtered to Recommendation = Invest	Counts businesses currently labelled Invest.	Businesses Evaluated; Recommendation	Current snapshot; label depends on source/approved rule	Overview
DAX-014	Review Count	Businesses Evaluated filtered to Recommendation = Review	Counts Review businesses.	Businesses Evaluated; Recommendation	Current snapshot	Overview
DAX-015	Reject Count	Businesses Evaluated filtered to Recommendation = Reject	Counts Reject businesses.	Businesses Evaluated; Recommendation	Current snapshot	Overview
DAX-016	Invest Rate %	Invest Count / Businesses Evaluated	Share of evaluated businesses labelled Invest.	DAX-001, DAX-013	Current snapshot	Overview

DAX-017	Review Rate %	Review Count / Businesses Evaluated	Share labelled Review.	DAX-001, DAX-014	Current snapshot	Overview
DAX-018	Reject Rate %	Reject Count / Businesses Evaluated	Share labelled Reject.	DAX-001, DAX-015	Current snapshot	Overview
DAX-019	High Risk Count	Businesses Evaluated filtered to Risk = High	Counts high-risk businesses in snapshot.	Risk field	Current snapshot	Risk & Alerts
DAX-020	High Risk Rate %	High Risk Count / Businesses Evaluated	High-risk share of evaluated businesses.	DAX-001, DAX-019	Current snapshot	Risk & Alerts

4. Selected-Business Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-021	Selected Business	SELECTEDVALUE Business Type; fallback All Businesses	Dynamic selected- business label.	Business Type	Current snapshot	Evaluation / Profile
DAX-022	Selected Business ID	SELECTEDVALUE Business ID; fallback Multiple	Shows selected target ID.	Business ID	Current snapshot	Evaluation / Profile
DAX-023	Selected Investment Score	SELECTEDVALUE Investment Score	Selected target's overall score.	Investment Score	Current snapshot	Evaluation
DAX-024	Selected Recommendation	SELECTEDVALUE Recommendation	Selected target's decision-support label.	Recommendation	Current snapshot	Evaluation
DAX-025	Selected Risk	SELECTEDVALUE Risk	Selected target's risk band.	Risk	Current snapshot	Evaluation / Risk
DAX-026	Selected Revenue \$K	SELECTEDVALUE Revenue (\$K)	Selected target revenue.	Revenue (\$K)	Current snapshot	Profile
DAX-027	Selected EBITDA \$K	SELECTEDVALUE EBITDA (\$K)	Selected target EBITDA.	EBITDA (\$K)	Current snapshot	Profile
DAX-028	Selected EBITDA Margin %	Selected EBITDA / Selected Revenue	Selected target EBITDA margin.	DAX-026, DAX-027	Current snapshot	Profile
DAX-029	Selected Growth %	SELECTEDVALUE Growth %	Selected target growth.	Growth %	Current snapshot	Evaluation / Profile
DAX-030	Selected Retention %	SELECTEDVALUE Retention %	Selected target retention.	Retention %	Current snapshot	Evaluation / Profile

5. Ranking & Comparison Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-031	Investment Rank	RANKX across ALLSELECTED Business ID by Average Investment Score	Ranks targets within current selection.	DAX-007	Current snapshot	Overview / Evaluation
DAX-032	Portfolio Score Difference	Current score minus portfolio average excluding business filters	Shows selected/context score vs portfolio average.	DAX-007	Current snapshot	Evaluation
DAX-033	Top Investment Score	MAXX across ALLSELECTED snapshot	Highest score in current selection.	Investment Score	Current snapshot	Overview
DAX-034	Lowest Investment Score	MINX across ALLSELECTED snapshot	Lowest score in current selection.	Investment Score	Current snapshot	Overview

6. Assumption-Driven Scoring Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-035	Financial Weight	LOOKUPVALUE from Assumptions; fallback 0.25	Configurable Financial Strength weight.	Disconnected Assumptions table	Proposed; validate	Evaluation
DAX-036	Operational Weight	LOOKUPVALUE; fallback 0.20	Configurable Operational Performance weight.	Assumptions	Proposed; validate	Evaluation
DAX-037	Growth Weight	LOOKUPVALUE; fallback 0.20	Configurable Growth weight.	Assumptions	Proposed; validate	Evaluation
DAX-038	Customer Health Weight	LOOKUPVALUE; fallback 0.15	Configurable Customer Health weight.	Assumptions	Proposed; validate	Evaluation

DAX-039	Risk Weight	LOOKUPVALUE; fallback 0.20	Configurable Risk weight.	Assumptions	Proposed; validate	Evaluation
DAX-040	Recalculated Investment Score	Weighted sum of five average dimension scores	Recomputes score from configurable dimension weights.	DAX-008 to DAX-012; DAX-035 to DAX-039	Proposed scoring	Evaluation
DAX-041	Invest Threshold	LOOKUPVALUE; existing pack fallback = 80	Configurable Invest threshold.	Assumptions	Illustrative fallback; not approved	Evaluation / Overview
DAX-042	Review Threshold	LOOKUPVALUE; existing pack fallback = 65	Configurable Review threshold.	Assumptions	Illustrative fallback; not approved	Evaluation / Overview
DAX-043	Dynamic Recommendation	SWITCH by score vs Invest/Review thresholds	Returns Invest / Review / Reject from configurable score thresholds.	DAX-040 to DAX-042	Proposed; valid only after thresholds approved	Evaluation / Overview

7. Snapshot Alert Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-044	Risk Alert Flag	Flag 1 if Risk = High or score < Review Threshold; otherwise 0	Provides simple snapshot alert indicator.	Risk; DAX-007; DAX-042	Partly assumption-driven	Risk & Alerts
DAX-045	Risk Alert Label	High risk / Low investment score / No critical alert	Human-readable alert label.	Risk; DAX-007; DAX-042	Partly assumption-driven	Risk & Alerts
DAX-046	Decision Priority	Immediate review / Investment candidate / Standard review	Prioritizes review based on risk alert and threshold.	DAX-044; DAX-041	Proposed decision-support logic	Overview / Risk

8. FUTURE-READY Financial & Operational KPI Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-047	Revenue	SUM FactBusinessMonthly[Revenue]	Period revenue.	FactBusinessMonthly	Future-ready	Profile / Monitoring
DAX-048	Revenue PM	Revenue shifted -1 month	Prior-month revenue.	DimDate + Revenue	Future-ready	Monitoring
DAX-049	Revenue PY	Revenue shifted -1 year	Prior-year revenue.	DimDate + Revenue	Future-ready	Profile / Monitoring
DAX-050	Revenue Growth %	(Revenue - Revenue PY) / Revenue PY	Revenue growth.	DAX-047, DAX-049	Future-ready	Profile / Monitoring
DAX-051	Gross Profit	Revenue - COGS	Gross profit.	Revenue + COGS	Future-ready	Profile
DAX-052	Gross Margin %	Gross Profit / Revenue	Gross margin.	DAX-047, DAX-051	Future-ready	Profile
DAX-053	EBITDA	SUM EBITDA	Period EBITDA.	FactBusinessMonthly[EBITDA]	Future-ready	Profile
DAX-054	EBITDA Margin %	EBITDA / Revenue	EBITDA margin.	DAX-047, DAX-053	Future-ready	Profile
DAX-055	Operating Cash Flow	SUM OperatingCashFlow	Operating cash flow.	FactBusinessMonthly	Future-ready	Profile / Risk
DAX-056	Cash Flow Margin %	Operating Cash Flow / Revenue	Cash-flow margin.	DAX-047, DAX-055	Future-ready	Profile / Risk
DAX-057	Revenue per Employee	Revenue / average EmployeeCount	Workforce productivity.	Revenue + EmployeeCount	Future-ready	Profile
DAX-058	Operating Cost %	OperatingCost / Revenue	Operating cost ratio.	OperatingCost + Revenue	Future-ready	Profile
DAX-059	Labor Cost %	LaborCost / Revenue	Labor cost ratio.	LaborCost + Revenue	Future-ready	Profile
DAX-060	Capacity Utilization %	CapacityUsed / CapacityAvailable	Capacity utilization.	Capacity fields	Future-ready	Profile
DAX-061	On-Time Service %	OnTimeServices / TotalServices	On-time service performance.	Service fields	Future-ready	Profile

9. FUTURE-READY Growth & Customer KPI Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-062	Customer Growth %	Current active customers vs prior year	Customer-base growth.	ActiveCustomers + DimDate	Future-ready	Profile
DAX-063	New Customer Acquisition	SUM NewCustomers	New customers acquired.	NewCustomers	Future-ready	Profile
DAX-064	Recurring Revenue %	RecurringRevenue / Revenue	Recurring-revenue share.	RecurringRevenue + Revenue	Future-ready	Profile
DAX-065	Average Revenue per Customer	Revenue / ActiveCustomers	Average revenue per active customer.	Revenue + ActiveCustomers	Future-ready	Profile
DAX-066	12-Month Revenue CAGR	Revenue current vs revenue 12 months prior	12-month revenue growth rate as defined in existing pack.	Revenue + DimDate	Future-ready; formula should be business-validated	Profile / Monitoring
DAX-067	Customer Retention %	ActiveCustomers / (ActiveCustomers + LostCustomers)	Retention measure as defined in current DAX pack.	Customer counts	Future-ready; definition should be validated	Profile
DAX-068	Customer Churn %	LostCustomers / (ActiveCustomers + LostCustomers)	Churn measure as defined in current DAX pack.	Customer counts	Future-ready; definition should be validated	Profile / Risk
DAX-069	Repeat Customer Rate	RepeatCustomers / ActiveCustomers	Repeat-customer rate.	Customer counts	Future-ready	Profile
DAX-070	Customer Complaint Rate	Complaints / TotalServices	Complaint rate using total services denominator.	Complaints + TotalServices	Future-ready; denominator should be validated	Profile / Risk
DAX-071	Customer Concentration %	TopCustomerRevenue / Revenue	Revenue concentration in top customer measure.	TopCustomerRevenue + Revenue	Future-ready; scope of 'top' should be validated	Risk & Alerts

10. FUTURE-READY Risk & Monitoring Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-072	Revenue Volatility	STDEVX.P of monthly revenue	Measures variability of monthly revenue.	Monthly history + DimDate	Future-ready	Risk & Alerts
DAX-073	Margin Deterioration	Current EBITDA Margin - prior-year EBITDA Margin	Shows margin change vs prior year.	DAX-054 + DimDate	Future-ready	Risk & Alerts
DAX-074	Revenue vs Target	Revenue - RevenueTarget	Absolute variance to approved revenue target.	FactTargets + Revenue	Future-ready	Portfolio Monitoring
DAX-075	Revenue vs Target %	Revenue vs Target / RevenueTarget	Percentage variance to approved target.	DAX-074 + FactTargets	Future-ready	Portfolio Monitoring
DAX-076	Investment Score Change	Current monthly Investment Score - prior month	Score movement over time.	Investment Score Monthly + DimDate	Future-ready; dependent measure not yet defined	Portfolio Monitoring
DAX-077	Businesses Requiring Attention	Count businesses with negative growth or threshold breaches	Attention-list count based on multiple conditions.	Revenue Growth, Churn Threshold, Margin Deterioration, Concentration Threshold	Future-ready; thresholds/dep. measures TBD	Monitoring / Risk

11. Dynamic Label Measures

ID	Measure	Logic	Business Purpose	Dependency	Status	Primary Page
DAX-078	Dashboard Subtitle	Portfolio snapshot N businesses evaluated	Dynamic page subtitle.	Businesses Evaluated	Current snapshot	Overview

DAX-079	Evaluation Title	Investment Evaluation - Selected Business	Dynamic evaluation title.	Selected Business	Current snapshot	Evaluation
DAX-080	Score Label	Selected score formatted as X / 100; otherwise Select one business	User-friendly score label.	Selected Investment Score	Current snapshot	Evaluation

12. Measure Gaps / Dependencies Not Yet Defined

Gap ID	Measure / Dependency	Current Status	Required Action
GAP-DAX-01	Operational Efficiency Score	One of the 28 KPIs, but the current DAX pack does not define its formula.	Define business-approved operational efficiency methodology before implementation.
GAP-DAX-02	Customer Concentration Risk	Risk KPI exists, but no separate risk-score DAX is defined beyond Customer Concentration %.	Define conversion from concentration value to risk score/band.
GAP-DAX-03	Cash Flow Risk	Risk KPI exists, but the DAX pack defines Operating Cash Flow / Cash Flow Margin rather than a final Cash Flow Risk score.	Define approved risk rule / normalization.
GAP-DAX-04	Data Quality Score	Required by the KPI framework and BR-10, but no final score formula is defined.	Approve completeness/validity/duplicate/staleness scoring methodology.
GAP-DAX-05	Overall Business Risk Score	KPI exists; no final aggregation formula is defined.	Define approved risk aggregation method.
GAP-DAX-06	Investment Score Monthly	Referenced by Investment Score Change but not defined in the current DAX pack.	Define monthly dimension/KPI scoring first.
GAP-DAX-07	Churn Alert Threshold	Referenced by Businesses Requiring Attention but not defined.	Add approved/configurable threshold to Assumptions.
GAP-DAX-08	Concentration Alert Threshold	Referenced by Businesses Requiring Attention but not defined.	Add approved/configurable threshold to Assumptions.

13. Measure Governance Rules

- Snapshot and future-ready measures must remain clearly separated until monthly historical data is available.
- Any measure that relies on thresholds, scoring direction or normalization must use approved/configurable assumptions rather than undocumented hard-coded rules.
- The fallback values 80 and 65 in the existing Invest/Review threshold measures are illustrative implementation defaults and require stakeholder validation.
- Time-intelligence measures require a valid date table with appropriate relationships and sufficient historical periods.
- DIVIDE should be used where denominators may be zero or blank to avoid calculation errors.
- Selected-business visuals should be driven by filter context; no business should be permanently hard-coded into reusable report pages.
- Measure names, definitions and dependencies should be reconciled against the KPI Catalogue, Data Dictionary, Scoring Methodology, Power BI Requirements and RTM before release.

14. Recommended Formatting

Measure Type	Recommended Display Format
Currency / Revenue / EBITDA	Use project-approved currency units; current snapshot fields are stored as \$K.
Percentage / Rate	Percentage format with appropriate decimal precision.
Scores	0-100 numeric score; typically one decimal where useful.
Counts	Whole number.
Recommendation / Risk Labels	Text.
Variance	Currency or percentage according to measure.

Current snapshot and future-ready measures are explicitly separated | Unapproved scoring / alert thresholds remain configurable
