

Change Request

Field	Entry
CR ID	CR-001
Requested Change	Add a mandatory data-quality gate before recommendation is displayed.
Business Rationale	Prevent an Invest/Review/Reject outcome from appearing conclusive when mandatory evidence is incomplete.
Impacted Requirements	BR-05, BR-10; FR-05, FR-12; US-05; UT-04, UT-09
Scoring Impact	Investment Score may still calculate for diagnostic use, but recommendation is withheld or flagged when confidence is below approved level.
Dashboard Impact	Investment Evaluation displays Data Quality / Confidence status beside recommendation.
Testing Impact	Add missing-data and low-confidence boundary scenarios.
Priority	High
Approval	Business Owner approval required
Status	Done
