

Decision Log

Proposed template plus source-supported methodology decisions. Dates/owners should be filled only from actual project evidence.

Decision ID	Decision	Rationale	Owner	Status
DEC-01	Use five evaluation dimensions: Financial, Operational, Growth, Customer Health and Risk.	Provides a balanced investment assessment beyond financial metrics alone.	Investment / Underwriting	Source-supported
DEC-02	Use a 0-100 scoring architecture.	Enables normalized comparison across investment targets.	Investment / Underwriting	Source-supported
DEC-03	Keep scoring weights and thresholds configurable until validated.	Source explicitly treats proposed values as methodology assumptions.	Business Owner	Source-supported
DEC-04	Expose Data Quality Score / status with the evaluation.	Prevents false confidence when evidence is incomplete or invalid.	Investment / Underwriting + Data / BI	Source-supported
DEC-05	Use five Power BI decision pages.	Separates portfolio overview, target evaluation, profile, monitoring and risk investigation.	Business + Data / BI	Source-supported
