New vs. Repeat Customers

Peak Appointment Hours

Customer Type by Revenue

Key Insights

- Appointment volume increased by 8%, with strong growth in completed appointments.
- Repeat customer rate improved to 46%, showing higher customer loyalty.
- Fridays and Saturdays are the busiest days.
- Peak hours are between 5-7 PM, indicating high demand during evening slots.
- Cancellations and no-shows increased, highlighting the need for better reminder systems.

Opportunities

- Implement automated appointment reminders to reduce cancellations and no-shows.
- Introduce loyalty programs to further increase repeat customers.
- Optimize staff scheduling based on peak hours and days.
- Run targeted offers during low-demand slots (e.g., weekday afternoons).
- Collect and act on customer feedback to improve experience and retention.

Our Goal

50%
Repeat Customer Rate
within ~3 months

More appointments.
Loyal customers.
A thriving salon.

Customer Rating by Staff Member

Key Insights

- Stylists contribute the highest revenue (42%) and have the highest utilization rate (78%).
- Top 5 staff members contribute a significant share of total revenue.
- Utilization varies across roles, with opportunity to increase bookings for Nail Technicians and Front Desk.
- Customer ratings are strong overall, with top performers maintaining consistency.
- Lower cancellation and no-show rates among top performers.

Opportunities

- Optimize staff scheduling to match demand, especially for Nail Technicians and Beauty Therapists.
- Provide targeted training and upskilling.
- Introduce performance-based incentives.
- Encourage cross-selling between services.
- Recognize and retain top performers through rewards and growth opportunities.
